

## Features

- (2) 3" Vents with Rain Shields and Screens
- Water Resistant JIC Enclosure Design with Gasketed Lid
- Stainless Steel Hinge and Quick Release Latches with Padlock Hasps
- Extra Deep Extended Lid for Increased Equipment Clearance
- Fiberglass Reinforced Polyester, FRP
- Raised Bosses and Brass Inserts for Plate and Accessory Mounting
- Weatherproof, UV Stable and Highly Corrosion Resistant
- NEMA 3R, 3RX / IP24 Rated
- Includes Cable Glands and Stainless Steel Mounting Feet
- RF Transparent Enclosure Pole Mounting Kit Available

## Description

---

The **Altelix NF100808V** Vented NEMA enclosure is ideal for protecting equipment from harsh environments and tampering while allowing ventilation for installed equipment or batteries.

### Vented NEMA Enclosure

This enclosure features two 3 inch air vents covered by rain shields, allowing ventilation of installed equipment or batteries while maintaining waterproof protection.

### Extreme Protection Built to Last

This rugged JIC style NEMA box is molded from durable UV stable and corrosion resistant fiberglass reinforced polyester (FRP) with a UL94-5V flame rating. The FRP material is dent-proof, non-conductive and RF transparent for compatibility with wireless equipment. It can be easily drilled and modified by the installer as needed. It features a gasketed door with stainless steel continuous hinge and stainless-steel quick release latches with padlock hasps.

### Cable Glands

The enclosure features two unique PG-16 cable glands with a closed inner seal. It is installed in the open port to maintain the NEMA rating of the enclosure when not in use. When required for use, simply punch a hole through the inner membrane, run your cables and tighten for a water-tight seal.

### Mounting

Stainless steel brackets are included for secure wall mounting. Optional flange and pole mounting kits are also available.
