Get your project up and running quickly and transition to hard-wired later if needed. The power cord can be easily removed, and the quick-connect terminal strip simplifies hard-wiring by a qualified installer.

Vented NEMA Enclosure
This enclosure features two 3 inch air vents covered by rain shields, allowing ventilation of installed equipment or batteries while maintaining waterproof protection**.**

Extreme Protection Built to Last

The FRP material is dent-proof, non-conductive and RF transparent for compatibility with wireless equipment. It can be easily drilled and modified by the installer as needed. It features a gasketed door with stainless steel continuous hinge and stainless steel quick release latches with padlock hasps.

Mounting
Stainless steel brackets are included for secure wall mounting. Optional flange and pole mounting kits are also available.
