- Quarter-Turn Door Latch
- Available with either Service or Emergency Phone Labels
- Weatherproof, UV Stable and Highly Corrosion Resistant
- NEMA 3, 3X / IP65 Rated
- (4) Mounting Feet Included
- Optional Pole Mounting Kit Available

## Description

The **Altelix NFC1121006-T01** Outdoor Weatherproof Phone Enclosure is ideal for deploying service and emergency telephones in outdoor locations and harsh environments. This rugged NEMA 3X enclosure is molded from durable and UV resistant fiberglass reinforced polyester (FRP). The door is fully gasketed making this enclosure suitable for use indoors or outdoors. The door features reinforced hinges and a quarter-turn latch to secure the enclosure. A drip rail over the door provides additional protection against water dripping in while the enclosure is wet.

This model features a standard wall mount RJ11 jack. A cable grommet is provided on the side of the box for the telephone wire. For installations that require better protection from water, a waterproof cable gland is included in the accessory kit.

This rugged dustproof and waterproof telephone enclosure is ideal for commercial applications including public pool decks, parking garages, resort properties, marinas, golf courses and public areas. Industrial uses include tunnels and mining, railway and subway stations, refineries, cement and chemical plants, treatment facilities and loading docks.

### Labels

The NFC121006-T01 is available with either a red and white Emergency Phone label or a green and white Service Phone label. Applied to the enclosure door, these labels are weatherproof and UV resistant.

### Mounting

This phone enclosure can be securely mounted to a wall or other structure. (4) mounting holes are provided inside the phone box. Wall anchors and rubber bonded washers are included in the accessory kit. (4) external mounting feet are also provided. Optional flange and pole mounting kits are available.
