

Shown with Fosi Audio® BT20A Pro Amplifier & Power Supply Installed – Not Included

Features

- Weatherproof protection for Fosi Audio® BT20A, BT20A PRO, BT30D, BT 30D PRO and M03 Amplifiers
- Dual vents with rain shields and screens to help expel heat
- (2) Internal pre-wired 120VAC power outlets with a pre-wired 5 foot 3-prong power cord
- Durable Polycarbonate + ABS construction, Weatherproof and UV Stable
- Meets NEMA 3R, 3RX and IP24
- Extra deep gasketed lid with dual stainless steel latches
- Tamper-Proof locking screw with key and provision for padlock
- Can be mounted using external feet or internal mounting points
- RF transparent for wireless devices
- Multiple size knock-out holes on bottom of enclosure
- Includes (2) locking keys, cable grommets, cable glands, zip ties, hook-n-loop tape and wall mounting hardware
- Optional pole mount kits available

Fosi Audio® is a trademark or registered trademark of Shenzhen Foresight Technology Co. Ltd.

Description

The **Altelix NP12 Series Fosi Audio® Enclosure** is designed to provide indoor or outdoor protection for Fosi Audio® Amplifiers. This enclosure is simple to install because no wiring is required. Simply mount the enclosure and plug the pre-wired 5 foot power cord into a nearby outlet. Two internal pre-wired 120VAC power outlets are provided to power the amplifier.

Plug and Play Installation

An internal bracket and (2) mounting straps are provided to secure the Fosi Audio® amplifier and power supply inside the enclosure. Two pre-installed cable glands on the enclosure facilitates speaker wiring and any additional cables. A self-adhesive mirror is included to provide greater visibility to the amp controls and indicator LEDs.

Ventilation

features two vents with rain shields to help expel heat from inside the enclosure. Screens on the inside of the vents can be removed and cleaned as required.

For high temperature installations this enclosure is also available with a thermostat controlled cooling fan. For more information see **NP17VMFA1C-FOS1**

RF Transparent Design

The Fosi Audio® amplifier enclosure rf transparent design will not interfere with the amplifier's Bluetooth operation.

Secure Your Fosi Audio® Amplifier

This enclosure features dual stainless steel quick release latches. A stainless steel security screw with keys and a provision for a padlock are also provided. An optional padlock is available in the accessories section.

Polycarbonate + ABS Protection Built to Last

This enclosure is molded out of UV resistant Polycarbonate + ABS, an industrial grade plastic with greater strength and durability than standard ABS. This enclosure can be easily drilled and modified by the installer to suit unique site requirements.

Complete with Cable Grommets and Wire Management Accessories

This enclosure includes an assortment of cable grommets and cable glands that can be installed in the knock-out holes for a weather resistant seal. Also included in the accessory kit are wall anchors, zip ties, wire management loops, hook-n-loop tape, ground wire, (2) door locking keys and more.

Multiple Mounting Options

This enclosure features (4) external mounting feet which can be used for wall mounting or with our optional pole mounting kit. Mounting points are also provided inside the enclosure. These can be easily drilled out and used for applications requiring a more secure installation.
