- Includes Wall Mounting Hardware, Cable Grommets, Zip Ties, Cable Management Loops and, Ground Plate & Ground Wire
- Knock-Out Holes on Top & Bottom
- Optional Equipment Mounting Plates and Pole Mount Kits Available

Description

The **Altelix NP141105V-IN** PC+ABS Plastic Vented Indoor Utility Enclosure is an industrial quality general purpose utility box designed to offer extreme protection for wiring and small devices in harsh environments.

Construction and Features - This enclosure is molded out of UV resistant Polycarbonate + ABS, an industrial grade plastic with greater strength and durability than standard ABS. It features a gasketed hinged door with dual latches, a stainless steel security screw and provision for a padlock. Knock-out holes are provided on the top and bottom. Meets or exceeds NEMA Type 3R, 3RX and IEC IP24.

Ventilation - These enclosures are designed primarily for indoor use such as in warehouses, office complexes, indoor parking garages and shopping centers. The NP141105V-IN features two 3 inch air vents with removable filters. It is ideal for protecting equipment while allowing ventilation for installed equipment or batteries.

Complete with Cable Grommets and Wire Management Accessories - This enclosure includes an assortment of cable grommets that can be installed in the knock-out holes for a weather resistant seal. The included accessory kit contains wall anchors, zip ties, wire management loops, grounding plate and ground wire, door locking key and more.

Mounting - The enclosure can be wall mounted using the included wall anchors. An optional pole mount kit is also available for installation on poles up to 8 inches in diameter.
