Amazon Echo® is a trademark or registered trademark of Amazon.com, Inc.

Overview

The **Altelix NP17AV** fan-cooled enclosures are designed to provide indoor or outdoor protection for a wide range of Audio/Video devices.

Install your Audio/Video Equipment Securely in Unattended Areas

This sleek enclosure is molded from UV resistant PC+ABS, a high-tech thermoplastic blend of polycarbonate and ABS, for extreme durability. The door features reinforced hinges, dual latches and a tamper-proof locking screw with key to secure the enclosure. The wall mounting screws are concealed securely within the enclosure to prevent tampering. There is also a provision for a padlock.

Universal Mounting System

The NP17AV enclosures feature a versatile adjustable mounting system that allows a wide range of devices to be installed inside of the enclosure. Some of these devices include:

- SONOS® AMP and SONOS® Connect:Amp™
- Apple TV® and Apple Mac mini®
- Amazon Echo® Link Amp
- Control4® EA-3 Controller (C4-EA3 and C4-EA3-V2)
- Crestron® MC3 3-Series Control System®
- Bluesound® Powernode Streaming Amplifier
- ROKU® Ultra
- WiiM® Pro Music Streamer

The following illustration shows the minimum and maximum size of devices that can be installed inside the enclosure.

Plug and Play Setup

The NP17AV enclosure provides easy plug-n-play installation. Once your equipment is securely mounted inside the enclosure, connect its power cord to the internal 120VAC power outlet. A cable grommet on the enclosure allows cables to be connected to the device. Simply plug the enclosure's 5 foot power cord into an outdoor outlet and you are up and running.

Cooling Fan Ventilation

The NP17AV enclosure features dual 3" vents and a thermostat controlled cooling fan. The low noise, high airflow fan helps maintain lower internal temperatures. The fan turns on when the internal temperature reaches 100°F (38°C) and turns off when it drops to 79°F (26°C). The fan is wired internally so it does not require the use of the AC outlets. Rain shrouds on the front door keep rainwater from entering the enclosure.

Mounting

These enclosures can be wall mounted using the included wall anchors. An optional pole mount kit (NMKG-283-08) is also available for mounting on poles or fence posts.

Optional USB Charging Ports

Available as an option, the NP17AV can be purchased with (2) charging ports, USB-A and USB-C. These 5VDC USB ports are integrated into the 120VAC outlet, so no additional room in the enclosure is required. Note: these ports used to power/charge electronic devices only, no data transfer capability.

Features:

- Dual 3" Vents and Thermostat Controlled Cooling Fan
- PC+ABS Polycarbonate / ABS Blend
- Gasketed Lid with Tamper-Proof Locking Screw
- Dual Door Latches
- Includes Rugged Aluminum Equipment Mounting Plate and Adjustable Brackets
- Internal 120VAC Outlets
- Pre-wired 5 foot power cord
- NEMA Type 3R, 3RX / IP24 Rated
- Includes Wall Mount Hardware and Cable Grommets

Applications:

- Outdoor or indoor use of Audio/Video & Network Devices
- SONOS® AMP
- SONOS® Connect:Amp™
- Apple TV®
- Apple Mac mini®
- Amazon Echo® Link Amp
- Control4® EA-3 Controller (C4-EA3 and C4-EA3-V2)
- Crestron® MC3 3-Series Control System®
- ROKU® Ultra
- Pool side, backyard audio/video entertainment systems
- Outdoor hotel and hospitality audio/video entertainment systems
- Marine audio entertainment systems
- Protection of Equipment from Theft or Damage

NP17AVGY with SONOS® AMP
