### Construction and Features

This rugged IP66 rated enclosure features continuous seam welded 18 Gauge (1.2mm thick) steel construction. The enclosure door is fully gasketed making this enclosure suitable for use indoors or outdoors. The door features reinforced hinges and a quarter-turn latch to secure the enclosure. Internal grounding studs are provided on both the door enclosure. A removable access panel is provided and is fully gasketed to ensure proper seal.

Both the enclosure and door are finished in a rugged epoxy polyester textured light gray powder coat finish.

### Galvanized Steel Equipment Plate

This configuration consists of the steel NEMA enclosure with hinged door and a 18 Gauge (1.2mm thick) zinc coated galvanized steel plate for mounting and securing equipment. The enclosure and plate can be drilled and modified by the installer to suit unique site requirements.

### Optional Lockable Latches

For additional protection of internal equipment installed, two lockable latches are available. The **HN-0005** is a keyed lock set which includes two keys. The **HN-0006** allows the enclosure to be securely locked via use of a padlock (not included). Both the HN-0005 and HN-0006 are direct replacements for the standard quarter-turn latches that come pre-installed in the enclosures.
